Description: COMPRESSOR MOUNT UPGRADE KIT P/N BCT010260A

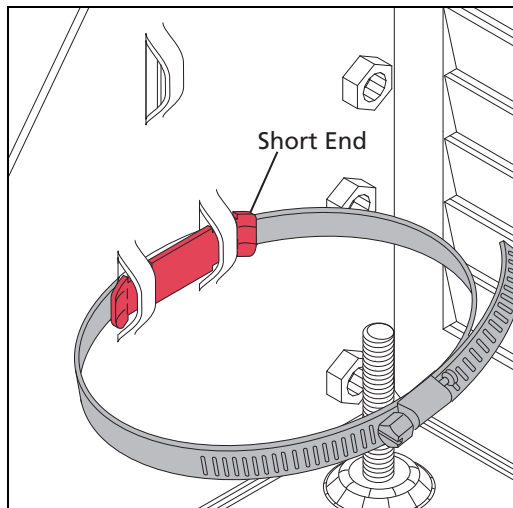

- 1. Hex nut with toothed washer (Torque to 7-8 lb-ft)
- 2. Flat washer
- 3. Spacer
- 4. Stress relief plate
- 5. Band clamp (Torque to 10-12 lb-in. Place a drop of med. strength blue lock-tite on clamp screw to secure from loosening.)
- 6. Mounting studs

Important!

The "short" end of the stress relief plate must go towards the rear of the enclosure for proper alignment.

Ensure that the plate remains in place when tightening the band clamp.

Important!

The stress relief plate (item 4) must be placed in front of the band clamp (item 5) with the bent ends towards the compressor.
