Analysis No. TS-M00197
 Report Date 15 October 2007¹
 Date Sampled 18 October 2006
 Where Sampled Denver, CO USA
 Sample Received 23 October 2006
 Sampled By Client

This is to certify that we have examined: Diesel Fueled Recreational Vehicle Stovetop with associated Mounting Hardware identified: Webasto Diesel Cooker X100

When examined to the applicable requirements of: Other Referenced Documents (ORD)*

TEi-RV001 (2007) "Liquid Fuel-Burning Surface-Top Cooking Appliances for Recreational Vehicles"

The above identified appliance COMPLIES with the requirements of the standard and is suitable for use in Recreational Vehicles Only. The Installation Shield is an integral part of the Webasto Cooktop and this certification is void if the shield is not use during installation.

The attached Report of Test is an integral portion of this summation certificate.

*When a nationally recognized standard for a specific product and/or component does not exist, TEi will develop a standard using currently published standards that are applicable to the product and/or component. Development of the ORD will be based upon the requirements of a similar product or components of a product which are similar to the product to be tested and will be extracted from such standards. Other requirements exist for an ORD. ¹Revision to Certificate 25 July 2008 to add the following: The requirements in this standard are drawn from the pertinent sections of the standards listed below. It references and harmonizes U.S. and Canadian cooking appliance standards, U.S. and Canadian electrical installation codes, component standards, and liquid fuel-burning component standards. It requires English and French instructions and marking provisions.

- ANSI Z21.57b-2004 - Recreational Vehicle Cooking Gas Appliances
- CAN/CSA 1.16-M79 (R2006) - Propane Fired Cooking Appliances for Recreational Vehicles
- CSA B140.0-03 - Oil-Burning Equipment: General Requirements
- UL 307A, 7th Edition - Liquid Fuel-Burning Heating Appliances for Manufactured Homes and Recreational Vehicles

This TEi-RV Standard is an Other Recognized Document (ORD) developed in accordance with ISO/IEC Guide 7:1994, "Guidelines for drafting of standards suitable for use for conformity assessment."
